JUSTIFICATION FOR CHANGE

JUSTIFICATION: The Nassau County Outreach Center will continue with two staff persons instead of the four that were initially requested and this is due to the lack of available office space.

Because the two counselor positions will not be filled, this has caused the Monthly Operating Plan percentage to be far below the actual. Also, the office furniture and equipment requested are no longer needed, but rather other items to meet the needs of the present staff.

Practically all line items had to be changed. As costs were incurred for the past two months, it was recognized that some line items required increasing.

The Proposal Design Specifications also had to be changed to reflect a realistic picture of what the Nassau Outreach Center is actually doing versus what was planned. In effect, the present two staff persons must assume the job functions of the counselors.
