AGREEMENT

This Agreement, entered into this 18th day

of May 1989, between the State of Florida Department of

Commerce, Division of Economic Development, hereinafter referred to

as the "Department", the Florida Department of Transportation,

hereinafter referred to as "DOT", and Nassau County, Florida,

hereinafter referred to as the "County".

W I T N E S S E T H:

WHEREAS, the Department has determined that the

construction of a transportation project, hereinafter referred to

as the "Project" and described in paragraph 1 below, is necessary

to facilitate the economic development and growth of the state as

contemplated by Section 258.063, Florida Statutes, and as set forth

in the Economic Development Transportation Fund Application,

attached hereto as Exhibit A, and

WHEREAS, the County is prepared to complete the Project

at an estimated total cost of \$1,620,012.

NOW, WHEREFORE, in consideration of the mutual

undertakings and agreements hereinafter set forth and agreed

between the parties as follows:

1. The Project is described as follows:

To construct a two lane divided access
road from US Highway 1A to the
beginning of the company's site
location, measuring approximately .333
miles in length, to the Ocean Highway
and Port Authority's Warehouse, in
Nassau County.

and is in connection with the location of facilities in the County

by the following company:

Kono America, Inc.

2. The Department will transfer funds in the amount of \$1,580,025 to the County to be applied toward total direct Project costs when this Agreement is executed by the Department.

3. Funds transferred to the County by the Department upon execution of this Agreement shall be invested by the County, until their actual expenditure, in such income or revenue producing investments as authorized by law for other County funds. All income, interest or other revenues obtained from such investment shall be considered Department funds. The income, interest or other revenues shall be remitted on a semi-annual basis within fifteen (15) days of the close of the months June and December, regardless of the month in which funds were received. Upon completion of the project, all remaining income, interest, or other revenues shall be returned to the Department.

4. No expenditure of Project funds made available by the Department shall be made prior to satisfaction of the following:

a. Before any funds made available by the Department pursuant to this Agreement are expended by the County, the County shall agree by resolution to accept future maintenance and other attendant costs occurring after completion of the Project for the portion of the Project on the County system and forward said resolution to the Department.

b. Before any funds made available by the Department pursuant to this Agreement are expended by the County, the County shall certify to the Department that the business entity referred to in paragraph 1 above has secured the necessary permits including but not limited to building permits and initiated construction of the facilities referenced therein. If the County fails to provide such certification to the Department within 180 days after contract execution, the Department may, at its discretion, terminate this Agreement. In the event of such termination, a return of funds in accordance with paragraph 13 below shall be promptly accomplished by the County.

c. No expenditure of funds made available by the Department pursuant to this Agreement shall be made by the County

prior to verification of invoices, statements or other related documents being duly submitted to the County for pre-audit and approval by the County.

5. Before any funds made available by the Department pursuant to this Agreement are expended by the County, the County shall provide to the Department certification and a copy of appropriate documentation substantiating that all required right-of-way has been obtained and meets the definition of right-of-way set forth in Section 334.03(16), Florida Statutes.

6. Funds made available by the Department pursuant to this Agreement shall be expended solely for the purpose of the project. No such funds shall be used for the purchase of any capital equipment, landscaping, water and sewer lines, for any legal action against the Department or DCT, nor for the administration of the project fund or cost associated with preparation of the application.

7. As an inducement to the transfer of funds referred to in paragraph 2 above, the County grants the assurances that, if initiated, the project will be carried through to its completion and will not require the expenditure of any additional funds from the Department. The County shall be liable for all cost overruns on the project.

8. The County agrees to seek and accept authorization from DCT to design and construct the project in accordance with standards promulgated by the Florida Department of Transportation (DOT) in accordance with Section 336.045 Florida Statutes, and to provide certification of same to the Department and DCT upon completion of the project. Such certification shall be provided by a professional engineer registered in Florida who shall certify that all design and construction for the project is in substantial conformance with the standards established by DOT pursuant to Section 336.045, Florida Statutes. DCT agrees to grant authority to the County to construct any portion of the project which may be on the State system.

9. The County shall award construction of the project (if construction costs will exceed \$50,000 exclusive of local in-kind Project costs) to the lowest and best bidder, in accordance with applicable state and federal statutes and regulations, and submit to the Department a copy of the bid tally sheet(s) and a copy of the awarded bid and contract.

10. The County is encouraged to utilize "minority business enterprises," as defined in Section 298.703, Florida Statutes, as subcontractors or subvendors when permitted under this Agreement and to report to the Department all such usage.

11. The County further agrees:

a. To maintain books, records, documents and other evidence according to generally accepted governmental accounting principles, procedures and practices which sufficiently and properly reflect all costs of any nature incurred by the County in the performance of this Agreement and to retain said books, records, documents and other evidence for a period of three (3) years after termination of this Agreement.

b. That aforesaid records, books, documents and other evidence shall be subject at all times to inspection, review or audit by state personnel of the Office of Auditor General, Office of Comptroller and other state personnel authorized by the Department.

c. To include these aforementioned audit and recordkeeping requirements in contracts and subcontracts thereto entered into by the County with any party for work required in the performance of this Agreement.

d. That three (3) months after the date of execution of this agreement and every three (3) months thereafter, it will provide the Department with a report containing details of work completed according to the project schedule; a description of any change orders executed; and a budget summary detailing planned expenditures versus actual expenditures.

e. That upon termination, it will provide the Department with a certification that the Project has been completed in compliance with the terms and conditions of this Agreement.

further; to provide a report which shall specify (i) the total funds transferred to the County by the Department pursuant to this agreement; (ii) the total income, interest or other revenues obtained from the investment of said funds; (iii) the total direct project costs paid from funds made available by the Department pursuant to this agreement; and (iv) the balance of any unexpended project funds.

The County covenants and agrees that it will indemnify and hold harmless the Department and DOT and all of the Department's and DOT's officers, agents, and employees from any claim, loss, damage, cost, charge or expense arising out of any act, action, neglect or omission by the County during the performance of the contract, whether direct or indirect, and whether to any person or property to which the Department, DOT or said parties may be subject to, except that neither the County nor any of its sub-contractors will be liable under this section for damages arising out of injury or damage to persons or property directly caused or resulting from the sole negligence of the Department or any of its officers, agents or employees or the sole negligence of DOT or any of its officers, agents or employees.

12. Unless terminated earlier, the term of this

agreement shall commence on the date inscribed above on page one

(1) of this agreement, the date of execution, and shall continue

until completion of project and payment of all costs, and the

expiration of the transportation project described herein shall

commence no later than November 30, 1985. In such case, the term

of this agreement shall continue until completion of the project in

14. Any project funds made available by the Department pursuant to this Agreement which are determined by the Department to have been improperly expended by the County in violation of this Agreement or other applicable law or regulation shall be promptly refunded in full to the Department. Appearance by the Department of any documents or certifications required or permitted to be filed by the County shall not constitute a waiver of the Department's rights as the funding agency to verify all information as a later date by audit or investigation.
