March 25, 1999

**Nassau County
Board of County Commissioners**

Ref: Old Jail Tower in Fernandina

The referenced tower is badly in need of maintenance. The following work is recommended to preserve the safety and reliability of this very important public safety communications Asset of Nassau county.

- 1. Several horizontal and vertical braces need to be replaced.**
- 2. Many leg section bolts are bad or missing and need to be replaced.**
- 3. All guy wires and associated hardware need to be replaced.**
- 4. One elevated guy point I beam needs to be replaced. This should be done by an accredited contractor of your choice before any other work is done. We will supply a replacement anchor rod and engineering drawings for this work.**
- 5. Any missing or bad antenna cable tie downs will be replaced.**
- 6. All antenna brackets will be checked, tightened or replaced if needed.**
- 7. All weather proofing at connectors will be checked and replaced if needed.**

Total cost includes parts and labor with exception as noted in #4, \$8950.

The above maintenance performed now and a good paint job in the near future should preserve this tower for up to 10 years.

Frank Pliska III
