Quotation Number 1 - Grades between William Burgess and the Judicial Complex

We have been asked to price additional work for the pond extension/grading between the road and buildings. In accordance with the attached drawing, the pond will be extended along William Burgess approximately 90 LF wide by approximately 200 LF by 6 feet deep. The excavated fill will be used to bring the rest of the site up to an appropriate grade.

D6 Dozer: 3 weeks; 120 Hrs @ \$ 80.00/Hr = \$ 9,600.00

Track hoe & Truck for 2 weeks: 80 Hrs @ \$165.00/Hr = \$13,200.00

Total = **\$22,800.00 [Not to EXCEED]**

This is in lieu of importing approx.. 1,100 loads of Fill plus spreading to grade - \$90,000.00

Quotation Number 2 - Subgrade problems in parking areas

We have determined through additional surveying that 30% of parking lot 1 on sheet PL-5 will require corrective action. For correcting parking subgrade problems:

Correcting 30% of Lot 1 - Lump Sum: **\$24,120**

This does not include any work in parking lot 2 shown on sheet PL-6. We also do not know at this time if any rework will be required.

Thanks,

Frank Vallencourt
