RECORDED 08/23/2005 01:27:21 PM
JOHN A. CRAWFORD
CLERK OF CIRCUIT COURT
NASSAU COUNTY, FLORIDA
RECORDING FEES 188.50

WHEREAS, the School Capacity Solution Committee, consisting of representatives of the Nassau County School Board, representatives of the Board of County Commissioners, representatives of the Northeast Florida Regional Council, developers, engineers, builders and owners of residential real estate properties, held public meetings to cooperate in developing a solution for the deficiencies in school capacity, which are expected to occur as the population grows; and

WHEREAS, the School Capacity Solution Committee, by consensus, established that it would best serve the public interest to have a solution for the projected deficiencies which is reasonable, uniformly applied, and implemented at the time building permits are issued for residential dwellings; and

WHEREAS, the members of the School Capacity Solution Committee agreed to participate in the development of such a solution; and

WHEREAS, it was the consensus of the School Capacity Solution Committee that the Nassau County School Board could elect to independently address projected school capacity deficiencies by requesting that the Nassau County Board of County Commissioners adopt a school

impact fee schedule as authorized by Nassau County Ordinance No. 87-17, as amended; and

WHEREAS, the Nassau County School Board contracted with Fishkind & Associates, Inc., an economic consulting firm, to conduct a school capacity financing analysis to examine and determine alternative means of funding deficiencies in school capacity; and

WHEREAS, the Nassau County School Board and the Nassau County Board of County Commissioners have jointly met in public meetings and have considered and reviewed the Nassau County School Board's funding deficiencies in school capacity including the implementation of school impact fees; and

WHEREAS, the implementation of education/school impact fees upon all new residential development in Nassau County would equitably assess part of the funding needs for future capital outlay against the population growth, which necessitates said future capital outlay; and

WHEREAS, Ordinance 87-17, Section 1. Findings and Declarations, (10), which originally adopted impact fees for Nassau County, including an education impact fee, indicated that the amount of the education impact fee was

to be stated as zero (0). It further stated that upon receipt of a study to be conducted by the School Board, and consequent recommendation, as well as the holding of a public hearing or hearings on said study, that the Nassau County Board of County Commissioners would evaluate the study and the fee schedule. This proposed Amendment to Ordinance 87-17 fulfills these requirements by providing the required information and process; and

WHEREAS, the Board of County Commissioners finds that it is in the best interest of the citizens of Nassau County to further amend Ordinance 87-17, as amended; and

WHEREAS, the Board of County Commissioners held a Public Hearing(s) on Monday, July 25, 2005, on the Amendment to the Impact Fee Ordinance for Educational Impact Fees; and

WHEREAS, the County has adopted Ordinance 2005-56 on July 25, 2005 which amends Ordinance 87-17 and imposes an Educational Impact Fee amount on all new residential development; and

WHEREAS, the parties to this Agreement have determined that it would be equitable to fund the cost of educational facilities for new population growth in the

County and Municipalities through the establishment of a county-wide Educational Impact Fee; and

WHEREAS, the parties to this Agreement wish to establish the basic understanding for the administration of the Educational Impact Fee;

NOW, THEREFORE, in consideration of the mutual covenants herein, the County, Fernandina Beach, Callahan, Hilliard and the SCHOOL BOARD agree as follows:
