As consideration for this indemnity provision the Contractor shall be paid the sum of Ten Dollars (\$10.00) which will be added to the contract price and paid prior to commencement of work.

The Contractor shall, on a primary basis, and at its sole expense, agree to maintain in full force and effect at all times during the life of this Contract, insurance coverages, limits, including endorsements, as described herein. The requirements contained herein, as well as Nassau County's review or acceptance of insurance maintained by Contractor are not intended to and shall not in any manner limit or qualify the liabilities and obligations assumed by Contractor under the Contract.

accordance with Florida Statute Chapter 440. Coverage must include Employers Liability with a minimum limit of \$100,000 each.

Business Auto Policy: The Contractor shall agree to maintain Business Automobile Liability at a limit of liability not less than \$500,000 each occurrence for all owned, non-owned and hired automobiles. In the event the Contractor does not own any automobiles, the Business Auto Liability requirement shall be amended allowing Contractor to agree to maintain only Hired and Non-Owned Auto Liability. This amended requirement may be satisfied by way of endorsement to the Commercial General Liability, or separate business auto coverage form.

Commercial General Liability: Commercial General Liability for public liability during the lifetime of this Contract shall have minimum limits of \$1,000,000 per claim, \$2,000,000 per occurrence for Personal Injury, Bodily Injury, and Property Damage Liability. Said liability insurance must be acceptable by and approved by the County as to form and types of coverage. In the event that the statutory liability of the County is amended during the term of this agreement to exceed the above limits, the Contractor shall be required, upon thirty (30) days written notice by the County, to provide coverage at least equal to the amended statutory limit of liability of the County.

Waiver of Subrogation: Contractor shall agree by entering into this Contract to a Waiver of Subrogation for each required policy. When required by the insurer, or should a policy condition not permit an Insured to enter into a pre-loss agreement to waive subrogation without an endorsement then Contractor shall agree to notify the insurer and request the policy be endorsed with a Waiver of Transfer of Rights of Recovery Against Others, or its equivalent. This Waiver of Subrogation requirement shall not apply to any policy, which a condition to the policy specifically prohibits such an endorsement, or voids coverage should Contractor enter into such an agreement on a pre-loss basis.

Subcontractors: It shall be the responsibility of the Contractor to insure that all subcontractors comply with the same insurance requirements referenced above.

Deductible Amounts: All deductible amounts shall be paid for and be the responsibility of the Contractor for any and all claims under this Contract.

When required by the insurer, or when Umbrella or Excess Liability is

written on "Non-Follow Form", the County shall be endorsed as an Additional Insured.

Right to Review: The County, through its Risk Management Coordinator, reserves the right, but not the obligation, to review and reject any insurer providing coverage.

SECTION 6. PROHIBITION AGAINST FILING OR MAINTAINING LIENS AND SUITS

Subject to the laws of the State of Florida and of the United States, neither Contractor nor any subcontractor, supplier of materials, laborer or other person shall file or maintain any lien for labor or materials delivered in the performance of this Contract against the County. The right to maintain such lien for any or all of the above parties is hereby expressly waived.

SECTION 7. WORK CHANGES

The County reserves the right to order work changes in the nature of additions, deletions or modifications without invalidating the Contract, and agrees to make corresponding adjustments in the contract price and time for completion. All changes will be authorized by a written change order signed by the Chairman of the Board of County Commissioners as representing the County. Work shall be changed and the contract price and completion time shall be modified only as set out in the written change order. Any adjustment in the contract price resulting in a credit or a charge to the County shall be determined by mutual agreement of the parties, or by arbitration before starting the work involved in the change.

SECTION 8. COMPLIANCE WITH LAWS

The Contractor shall give all notices required by and shall otherwise comply with all applicable laws, ordinances and codes and shall, at his own expense, secure and pay the fees and charges for all permits required for the performance of the Contract. On completion of the work, Contractor shall remove all Contractors' equipment and all excess materials, and put the work area in a neat, clean and sanitary condition.

SECTION 10. NOTICE OF PERFORMANCE

When required materials have been delivered and required work performed, Contractor shall submit a request for inspection in writing to the Contract Supervisor (Building Maintenance Director).

SECTION 11. DELIVERY DOCUMENTATION

Where Contract provides, in whole or in part, for the sale and purchase of materials/product, the Contractor shall prepare a delivery ticket in triplicate for each shipment of material/product delivered to the County. The delivery ticket shall be signed by the Contract Supervisor (Building Maintenance Director) or his designee receiving the material product. One

copy shall be given to the Contract Supervisor (Building Maintenance Director) or his designee with the material/product, the Contractor shall retain one copy, and one copy shall accompany the Contractor's invoice.

SECTION 12. INSPECTION AND CORRECTION OF DEFECTS

In order to determine whether the required material has been delivered or the required work performed in accordance with the terms and conditions of the contract documents, the Contract Supervisor (Building Maintenance Director) shall make inspection as soon as practicable after receipt from the Contractor of a Notice of Performance or delivery ticket. If such inspection shows that the required material has been delivered and required work performed in accordance with terms and conditions of the contract documents and that the material and work is entirely satisfactory, the Contract Supervisor (Building Maintenance Director) shall approve the invoice when it is received. Thereafter the Contractor shall be entitled to payment, as described in Section 3. If, on such inspection the Contract Supervisor (Building Maintenance Director) is not satisfied, he shall as promptly as practicable inform the parties hereto of the specific respects in which his findings are not favorable. Contractor shall then be afforded an opportunity if desired by him to correct the deficiencies so pointed out at no additional charge to the County, and otherwise on terms and conditions specified by the Contract Supervisor (Building Maintenance Director). Such examination, inspection, or tests made by the

Contract Supervisor (Building Maintenance Director), at any time, shall not relieve Contractor of his responsibility to remedy any deviation, deficiency, or defect.

SECTION 13. ADDITIONAL REQUIREMENTS

In the event of any conflict between the terms and conditions, appearing on any purchase order issued relative to this Contract, and those contained in this Contract and the Specifications herein referenced, the terms of this Contract and Specifications herein referenced shall apply.

SECTION 14. LICENSING

SECTION 15. SAFETY PRECAUTIONS

SECTION 16. ASSIGNMENT

Contractor shall not delegate, sublet or subcontract any part of the work under this Contract or assign any monies due him hereunder without first obtaining the written consent of the County.

SECTION 17. TERMINATION, DELAYS AND LIQUIDATED DAMAGES

- A. Termination of Contract. If the Contractor refuses or fails to deliver material as required and/or prosecute the work with such diligence as will insure its completion within the time specified in this Contract, or as modified as provided in this Contract, the County, by written notice to the Contractor, may terminate Contractor's rights to proceed. On such termination, the County may take over the work and prosecute the same to completion, by contract or otherwise, and the Contractor and his sureties shall be liable to the County for any additional cost incurred by it in its completion of the work. The County may also in event of termination obtain undelivered materials, by contract or otherwise, and the Contractor and his sureties shall be liable to the County for any additional cost incurred for such material. Contractor and his sureties shall also be liable to the County for liquidated damages for any delay in the completion of the work as provided below. If the Contractor's right to proceed is so terminated, the County may take possession of and utilize in completing the work such materials, tools, equipment and facilities as may be on the site of the work and necessary therefore.
- B. Liquidated Damages for Delays. If material is not provided or work is not completed within the time

stipulated in this Contract, including any extensions of time for excusable delays as herein provided, (it being impossible to determine the actual damages occasioned by the delay) the Contractor shall provide to the County one hundred dollars (\$100.00) as fixed, agreed and liquidated damages for each calendar day of delay until the work is completed. The Contractor and his sureties shall be liable to the County for the amount thereof.

- C. Excusable Delays. The right of the Contractor to proceed shall not be terminated nor shall the Contractor be charged with liquidated damages for any delays in the completion of the work or delivery of materials due to:
- (1) any acts of the Federal Government, including controls or restrictions or requisitioning of materials, equipment, tools or labor by reason of war, national defense or any other national emergency,
 - (2) any acts by the County,
 - (3) causes not reasonably foreseeable by the parties at the time of the execution of the contract that are beyond the control and without the fault or negligence of the Contractor, including but not restricted to acts of God, acts of the public enemy, acts of another contractor in the performance of some other contract with the County, fires, floods, epidemics, quarantine, restrictions, strikes, freight embargoes and weather of unusual severity such as hurricanes, tornadoes, cyclones and other extreme weather conditions,

and (4) any delay of any subcontractor occasioned by any of the above mentioned causes. However, the Contractor must promptly notify the County in writing within two (2) days of the cause of delay. If, on the basis of the facts and the terms of this Contract, the delay is properly excusable the County shall extend the time for completing the work for a period of time commensurate with the period of excusable delay.

The County may terminate this agreement with or without cause by giving the vendor/contractor thirty (30) days notice in writing. Upon delivery of said notice and upon expiration of the thirty (30) day period, the vendor/contractor shall discontinue all services in connection with the performance of this agreement and shall proceed to cancel promptly all existing contracts in so far as such contracts are chargeable to this agreement.

SECTION 18. LAW AND VENUE

This agreement is to be construed as though made in and to be performed in the State of Florida and is to be governed by the laws of Florida in all respects without reference to the laws of any other state or nation. The venue of any action taken pursuant to this Contract shall be in Nassau County, Florida.

SECTION 19. REIMBURSEMENT FOR INSPECTION

The Contractor agrees to reimburse the County for any expenditures incurred by the County in the process of testing materials supplied by the Contractor against the specifications under which said materials were procured, if said materials prove

to be defective, improperly applied, and/or in other manners not in compliance with specifications. Expenditures as defined herein shall include, but not be limited to, the replacement value of materials destroyed in testing, the cost paid by the County to testing laboratories and other entities utilized to provide tests, and the value of labor and materials expended by the County in the process of conducting the testing. Reimbursement of charges as specified herein shall not relieve the Contractor from other remedies provided in the contract.

SECTION 20. APPROPRIATION APPROVAL

The Contractor acknowledges that this contract is subject to approval by the Board of County Commissioners of Nassau County, Florida, of budget appropriation for the contract period beyond September 30 of fiscal year. The Contractor agrees that, in the event such appropriation is not forthcoming, this contract may be terminated by the County and no charges, penalties or other costs shall be assessed.

SECTION 21. RENEWAL OPTION

The County reserves the right to use this bid award for future needs upon mutual approval for one year with one (1) individual subsequent yearly renewals. In the event Contractor offers in writing, prior to the expiration of this Contract, to provide the identical services required in this Contract for the identical period of time in the subsequent calendar period, the County agrees that said services/products are required and that the cost is acceptable, then the County without additional

bidding or negotiation, may, with the mutual agreement of the Contractor, extend this contract for the additional term.

SECTION 22. DISPUTES

Any dispute arising under this Contract shall be addressed by the representatives of the County and the Contractor as set forth herein. Disputes shall be set forth in writing to the County Administrator with a copy to the Building Maintenance Director and provided by overnight mail, UPS, FedEx, or certified mail, with a response provided in the same manner prior to any meetings of representatives. The initial meeting shall be with the County Administrator and the Building Maintenance Director or their designee and a representative of the Contractor. If the dispute is not settled at that level, the County Attorney shall be notified in writing by the Building Maintenance Director or his/her designee, and the County Attorney and the County Administrator and the Building Maintenance Director or their designee(s) shall meet with the Contractor's representative(s). Said meeting shall occur within sixty (60) days of the notification by the County Administrator. Mediators shall be chosen by the County and the cost of mediation shall be borne by the Contractor. If either party initiates a Court proceeding, and the Court orders, or the parties agree to, mediation, the cost of mediation shall be borne by the Contractor. Contractor shall not stop work during the pendency of mediation or dispute resolution. No litigation shall be initiated unless and until the procedures set forth herein are followed.

SECTION 23. ENTIRE AGREEMENT

The written terms and provisions of this contract shall supersede all prior verbal statements of any official or other representative of the County. Such statements shall not be effective or be construed as entering into, or forming a part of, or altering in any manner whatsoever, this Contract or contract documents.

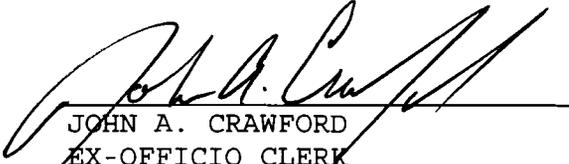

IN WITNESS WHEREOF, the parties have executed this contract at Nassau County, Florida, this day and year first above written.

WARRANTY:

The successful bidder shall fully warrant, in writing within 30 days of final acceptance by City, all furnished or furnished/installed equipment to be free of defects in materials and/or workmanship for a period of at least one (1) year from date of installation and acceptance by City of Jacksonville. Successful bidder shall repair and/or replace, at no additional cost to City of Jacksonville, any defects or malfunctions noted during the warranty period. In addition, successful bidder shall transfer any manufacturer's guarantee to the City, in writing within 30 days of final acceptance by City, for supplier/installer furnished equipment extending beyond this contract period.

Daniel, following up on our conversation this morning, I want to document the facts regarding the foundation construction to date. Yesterday we spent 6 hours with a machine pushing dirt to get to the necessary grade. We found an area(s) where compaction seemed to be an issue. Today we will meet you at the site to address the compaction question. Hopefully we can begin construction of the foundations after any additional compaction is performed by the County.

Also, you and I both originally thought the Polygon would have 12 footers. However this G1058SP is designed with 6 footers requiring 4.12 cu. yd. of concrete each. The anticipated footer size, and the size we quoted, was 1 cu. yd. each. Pouring the six roughly 4.12 cu.yd. footers requires more than twice the concrete anticipated for the quoted 12 one cubic yard footers. Our labor costs are increased as well. While it appears you would be due a refund because only six footers are being poured instead of 12, Our cost for concrete and labor is more than twice the cost we anticipated in our quote. Contract Connection will absorb this cost. Daniel, please let me know if you have any questions. As always, it is a pleasure working with you and your staff. I appreciate your business.
