THIS AGREEMENT is entered into by and between the State of Florida, Division of Emergency Management, with headquarters in Tallahassee, Florida (hereinafter referred to as the "Division"), and Nassau County, (hereinafter referred to as the "Recipient").

THIS AGREEMENT IS ENTERED INTO BASED ON THE FOLLOWING REPRESENTATIONS:

Either party may request modification of the provisions of this Agreement. Changes which are mutually agreed upon shall be valid only when reduced to writing, duly signed by each of the parties hereto, and attached to the original of this Agreement.

(5) RECORDKEEPING

(a) The Recipient shall retain sufficient records demonstrating its compliance with the terms of this Agreement, and the compliance of all subcontractors or consultants to be paid from funds provided under this Agreement, for a period of five years from the date the audit report is issued, and shall allow the Division or its designee, the Chief Financial Officer, or Auditor General access to such records upon request. The Recipient shall ensure that audit working papers are made available to the Division or its designee, the Chief Financial Officer, or Auditor General upon request for a period of five years from the date the audit report is issued, unless extended in writing by the Department, with the following exceptions:

1. If any litigation, claim or audit is started before the expiration of the five year period and extends beyond the five year period, the records will be maintained until all litigation, claims or audit findings involving the records have been resolved.
2. Records for the disposition of non-expendable personal property valued at \$5,000 or more at the time of acquisition shall be retained for five years after final disposition.
3. Records relating to real property acquisition shall be retained for five years after closing of title.

(b) The Recipient shall maintain all records, for the Recipient and for all subcontractors or consultants to be paid from funds provided under this Agreement, including supporting documentation of all program costs, in a form sufficient to determine compliance with the requirements and objectives of the Budget and Scope of Work - Attachment A - and all other applicable laws and regulations.

(c) The Recipient, its employees or agents, including all subcontractors or consultants to be paid from funds provided under this Agreement, shall allow access to its records at reasonable times to the Department, its employees, and agents. "Reasonable" shall be construed according to the circumstances but ordinarily shall mean during normal business hours of 8:00 a.m. to 5:00 p.m., local time, on Monday through Friday. "Agents" shall include, but not be limited to, auditors retained by the Division.

(6) AUDIT REQUIREMENTS

(a) The Recipient agrees to maintain financial procedures and support documents, in accordance with generally accepted accounting principles, to account for the receipt and expenditure of funds under this Agreement.

(b) These records shall be available at all reasonable times for inspection, review, or audit by state personnel and other personnel duly authorized by the Division. "Reasonable" shall be construed according to circumstances, but ordinarily shall mean normal business hours of 8:00 a.m. to 5:00 p.m., local time, Monday through Friday.

(c) The Recipient shall also provide the Division with the records, reports or financial statements upon request for the purposes of auditing and monitoring the funds awarded under this Agreement.

(d) If the Recipient is a nonstate entity as defined by Section 215.97, Fla. Stat., it shall comply with the following:

In the event that the Recipient expends a total amount of State financial assistance equal to or in excess of \$500,000 in any fiscal year of such Recipient, the Recipient must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, Fla. Stat.; applicable rules of the Executive Office of the Governor and the Chief Financial Officer; and Chapters 10.550 (local government entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. EXHIBIT 1 to this Agreement indicates State financial assistance awarded through the Division by this Agreement. In determining the State financial assistance expended in its fiscal year, the Recipient shall consider all sources of State financial assistance, including State funds received from the Division, other state agencies, and other nonstate entities. State financial assistance does not include Federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

In connection with the audit requirements addressed in this Paragraph 6(d) above, the Recipient shall ensure that the audit complies with the requirements of Section 215.97(7), Fla. Stat. This includes submission of a reporting package as defined by Section 215.97(2)(d), Fla. Stat. and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.

If the Recipient expends less than \$500,000 in State financial assistance in its fiscal year, an audit conducted in accordance with the provisions of Section 215.97, Fla. Stat. is not required. In the event that the Recipient expends less than \$500,000 in state financial assistance in its fiscal year and elects to have an audit conducted in accordance with the

provisions of Section 215.97, Fla. Stat., the cost of the audit must be paid from the nonstate entity's resources (i.e., the cost of such an audit must be paid from the Recipient's resources obtained from other than State entities). (f) In the event the audit shows that the entire funds disbursed hereunder, or any portion thereof, were not spent in accordance with the conditions of this Agreement, the Recipient shall be held liable for reimbursement to the Division of all funds not spent in accordance with these applicable regulations and Agreement provisions within thirty (30) days after the Division has notified the Recipient of such non-compliance.

(g) The Recipient shall have all audits completed in accordance with Section 215.97, Fla. (b) Quarterly reports are due to be received by the Division no later than 30 days after the end of each quarter of the program year and shall continue to be submitted each quarter until submission of the administrative close-out report. The ending dates for each quarter of the program year are March 31, June 30, September 30 and December 31.

(c) The close-out report is due 60 days after termination of this Agreement or upon completion of the activities contained in this Agreement, whichever first occurs.

(d) If all required reports and copies, prescribed above, are not sent to the Division or are not completed in a manner acceptable to the Division, the Division may withhold further payments until they are completed or may take such other action as set forth in Paragraph (11) REMEDIES. "Acceptable to the Division" means that the work product was completed in accordance with the Budget and Scope of Work.

(e) The Recipient shall provide such additional program updates or information as may be required by the Division.

(8) MONITORING.

The Recipient shall monitor its performance under this Agreement, as well as that of its subcontractors, subrecipients and consultants who are paid from funds provided under this Agreement, to ensure that time schedules are met, the Budget and Scope of Work is accomplished within the specified time periods, and other performance goals stated in this Agreement are achieved. Such review shall be made for each function or activity set forth in Attachment A to this Agreement, and reported in the quarterly report.

In addition to reviews of audits conducted in accordance with OMB Circular A-133, as revised and Section 215.97, Fla. Stat. (see Paragraph (6) AUDIT REQUIREMENTS, above ), monitoring procedures may include, but not be limited to, on-site visits by Division staff, limited scope audits as defined by OMB Circular A-133, as revised, and/or other procedures. By entering into this Agreement, the Recipient agrees to comply and cooperate with all monitoring procedures/processes deemed appropriate by the Division. In the event that the Division determines that a limited scope audit of the Recipient is appropriate, the Recipient agrees to comply with any additional instructions provided by the Division to the Recipient regarding such audit. The Recipient further agrees to comply and cooperate with any inspections, reviews, investigations or audits deemed necessary by the Chief Financial Officer or Auditor General. In addition, the Division will monitor the performance and financial management by the Recipient throughout the contract term to ensure timely completion of all tasks.

(9) LIABILITY.

(a) Unless Recipient is a State agency or subdivision, as defined in Section 768.28, Fla. Stat., the Recipient shall be solely responsible to parties with whom it shall deal in carrying out the terms of this Agreement, and shall hold the Division harmless against all claims of whatever nature by third parties arising out of the performance of work under this agreement. For purposes of this Agreement, Recipient agrees that it is not an employee or agent of the Division, but is an independent contractor.

(b) Any Recipient who is a state agency or subdivision, as defined in Section 768.28, Fla. Stat., agrees to be fully responsible to the extent provided by Section 768.28 Fla. Stat. for its negligent acts or omissions or tortious acts which result in claims or suits against the Division, and agrees to be liable for any damages proximately caused by said

acts or omissions. Nothing herein is intended to serve as a waiver of sovereign immunity by any Recipient to which sovereign immunity applies. Nothing herein shall be construed as consent by a state agency or subdivision of the State of Florida to be sued by third parties in any matter arising out of any contract.

(10) DEFAULT.

If any of the following events occur ("Events of Default"), all obligations on the part of the Division to make any further payment of funds hereunder shall, if the Division so elects, terminate and the Division may, at its option, exercise any of its remedies set forth in Paragraph (11), but the Division may make any payments or parts of payments after the happening of any Events of Default without thereby waiving the right to exercise such remedies, and without becoming liable to make any further payment:

(a) If any warranty or representation made by the Recipient in this Agreement or any previous Agreement with the Division shall at any time be false or misleading in any respect, or if the Recipient shall fail to keep, observe or perform any of the obligations, terms or covenants contained in this Agreement or any previous agreement with the Division and has not cured such in timely fashion, or is unable or unwilling to meet its obligations thereunder;

(b) If any material adverse change shall occur in the financial condition of the Recipient at any time during the term of this Agreement, and the Recipient fails to cure said material adverse change within thirty (30) days from the time the date written notice is sent by the Division.

(c) If any reports required by this Agreement have not been submitted to the Division or have been submitted with incorrect, incomplete or insufficient information;

(d) If the Recipient has failed to perform and complete in timely fashion any of its obligations under this Agreement.

(11) REMEDIES.

Upon the happening of an Event of Default, then the Division may, at its option, upon thirty (30) calendar days prior written notice to the Recipient and upon the Recipient's failure to cure within said thirty (30) day period, exercise any one or more of the following remedies, either concurrently or consecutively:

(a) Terminate this Agreement, provided that the Recipient is given at least thirty (30) days prior written notice of such termination. The notice shall be effective when placed in the United States mail, first class mail, postage prepaid, by registered or certified mail-return receipt requested, to the address set forth in Paragraph (13) herein;

(b) Commence an appropriate legal or equitable action to enforce performance of this Agreement;

(c) Withhold or suspend payment of all or any part of a request for payment;

(d) Exercise any corrective or remedial actions, to include but not be limited to:

1. requesting additional information from the Recipient to determine the reasons for or the extent of non-compliance or lack of performance,

2. issuing a written warning to advise that more serious measures may be taken if the situation is not corrected,

3. advising the Recipient to suspend, discontinue or refrain from incurring costs for any activities in question or

4. requiring the Recipient to reimburse the Division for the amount of costs incurred for any items determined to be ineligible;

(e) Require that the Recipient return to the Division any funds which were used for ineligible purposes under the program laws, rules and regulations governing the use of funds under this program;

(f) Exercise any other rights or remedies which may be otherwise available under law;

(g) The pursuit of any one of the above remedies shall not preclude the Division from pursuing any other remedies contained herein or otherwise provided at law or in equity. No waiver by the Division of any right or remedy granted hereunder or failure to insist on strict performance by the Recipient shall affect or extend or act as a waiver of any other right or remedy of the Division hereunder, or affect the subsequent exercise of the same right or remedy by the Division for any further or subsequent default by the Recipient.

(12) TERMINATION.

(a) The Division may terminate this Agreement for cause upon thirty (30) days written notice. Cause shall include, but not be limited to, misuse of funds; fraud; lack of compliance with applicable rules, laws and regulations; failure to perform in a timely manner; and refusal by the Recipient to permit public access to any document, paper, letter, or other material subject to disclosure under Chapter 119, Fla. Stat., as amended.

(b) The Division may terminate this Agreement for convenience or when it determines, in its sole discretion, that the continuation of the Agreement would not produce beneficial results commensurate with the further expenditure of funds, by providing the Recipient with thirty (30) calendar days prior written notice.

(c) The parties may agree to terminate this Agreement for their mutual convenience as evidenced by written amendment of this Agreement. The amendment shall establish the effective date of the termination and the procedures for proper closeout of the Agreement.

(d) In the event that this Agreement is terminated, the Recipient will not incur new obligations for the terminated portion of the Agreement after the Recipient has received the notification of termination. The Recipient will cancel as many outstanding obligations as possible. Costs incurred after the date of receipt of notice of the termination will be disallowed. Notwithstanding the above, the Recipient shall not be relieved of liability to the Division by virtue of any breach of Agreement by the Recipient. The Division may, to the extent authorized by law, withhold any payments to the Recipient for purpose of set-off until such time as the exact amount of damages due the Division from the Recipient is determined.

If any provision hereof is in conflict with any applicable statute or rule, or is otherwise unenforceable, then such provision shall be deemed null and void to the extent of such conflict, and shall be deemed severable, but shall not invalidate any other provision of this Agreement.

(n) The Recipient is subject to Florida's Government in the Sunshine Law (Section 286.011, Fla. Stat.) with respect to the meetings of the Recipient's governing board or the meetings of any subcommittee making recommendations to the governing board. The Recipient shall retain all rights and entitlements to any pre-existing intellectual property which is so disclosed. Failure to disclose will indicate that no such property exists. The Division shall then, under Paragraph (b), have the right to all patents and copyrights which accrue during performance of the Agreement.

(23) PROPERTY MANAGEMENT.

(a) Title to equipment acquired by a Recipient with State funds shall vest in the Recipient, subject to conditions of this section. The Recipient must continue the operation, maintenance, repair and administration of any equipment or other personal property purchased under this Agreement in accordance with the purposes for which the funds were originally appropriated and for the period of time expressly specified in the Agreement or, failing to do so, the Recipient must return to the Division the subgrant funds used to purchase the property.

(b) The Recipient shall not use equipment acquired with State funds to provide services to non-State outside organizations for a fee that is less than private companies charge for equivalent services, unless specifically authorized by Florida statute, for as long as the State retains an interest in the equipment.

(c) The Recipient shall use the equipment in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by State funds and shall not encumber the property without approval of the Division. When no longer needed for the original project or program, the Recipient shall use the equipment in connection with its other State-sponsored activities, in the following order of priority: (i) Activities sponsored by the Division, then (ii) activities sponsored by other State agencies.

(d) During the time that equipment is used on the project or program for which it was acquired, the Recipient shall make it available for use on other projects or programs if such other use will not interfere with the work on the project or program for which the equipment was originally acquired. First preference for such other use shall be given to other projects or programs sponsored by the Division; second preference shall be given to projects or programs sponsored by other State agencies. If the equipment is owned by the State of Florida, use on other activities not sponsored by the State of Florida shall be permissible if authorized by the Division. User charges shall be treated as program income.

(e) When acquiring replacement equipment, the Recipient may use the equipment to be replaced as trade-in or sell the equipment and use the proceeds to offset the costs of the replacement equipment subject to the approval of the Division.

(f) The Recipient's property management standards for equipment acquired with State and State-owned equipment shall include all of the following.

(1) Equipment records shall be maintained accurately and shall include the following information.

(i) A description of the equipment.

(vii) Location and condition of the equipment and the date the information was reported.

(viii) Unit acquisition cost.

(ix) Ultimate disposition data, including date of disposal and sales price or the method used to determine current fair market value where a Recipient compensates the Division for its share.

(2) Equipment owned by the State of Florida shall be identified to indicate State ownership.

(3) A physical inventory of equipment shall be taken and the results reconciled with the equipment records at least once every two years. Any differences between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the difference. The Recipient shall, in connection with the inventory, verify the existence, current utilization, and continued need for the equipment.

(4) A control system shall be in effect to insure adequate safeguards to prevent loss, damage, or theft of the equipment. Any loss, damage, or theft of equipment shall be investigated and fully documented; if the equipment was owned by the State of Florida, the Recipient shall promptly notify the Division.

(5) Adequate maintenance procedures shall be implemented to keep the equipment in good condition.

(6) Where the Recipient is authorized or required to sell the equipment, proper sales procedures shall be established which provide for competition to the extent practicable and result in the highest possible return.

(g) When the Recipient no longer needs the equipment, the equipment may be used for other activities in accordance with the following standards. For equipment with a current per unit fair market value of \$5000 or more, the

Recipient may retain the equipment for other uses provided that compensation is made to the Division. The amount of compensation shall be computed by applying the percentage of State participation in the cost of the original project or program to the current fair market value of the equipment. If the Recipient has no need for the equipment, the Recipient shall request disposition instructions from the Division. The Division shall determine whether the equipment can be used to meet the Division's requirements. If no requirement exists within that agency, the availability of the equipment shall be reported to the Department of Management Services by the Division to determine whether a requirement for the equipment exists in other State agencies. The Division shall issue instructions to the Recipient no later than 120 calendar days after the Recipient's request and the following procedures shall govern.

(1) If so instructed or if disposition instructions are not issued within 120 calendar days after the Recipient's request, the Recipient shall sell the equipment and reimburse the Federal awarding agency an amount computed by applying to the sales proceeds the percentage of Federal participation in the cost of the original project or program. However, the Recipient shall be permitted to deduct and retain from the State share \$500 or ten percent of the proceeds, whichever is less, for the Recipient's selling and handling expenses.

(2) If the Recipient is instructed to ship the equipment elsewhere, the Recipient shall be reimbursed by the State of Florida by an amount which is computed by applying the percentage of the Recipient's participation in the cost of the original project or program to the current fair market value of the equipment, plus any reasonable shipping or interim storage costs incurred.

(3) If the Recipient is instructed to otherwise dispose of the equipment, the Recipient shall be reimbursed by the Division for such costs incurred in its disposition.

(4) The Division may reserve the right to transfer the title to the State of Florida or to a third party named by the State when such third party is otherwise eligible under existing statutes. Such transfer shall be subject to the following standards.

(i) The equipment shall be appropriately identified in the award or otherwise made known to the Recipient in writing.

(ii) The Division shall issue disposition instructions within 120 calendar days after receipt of a final inventory. The final inventory shall list all equipment acquired with grant funds and federally-owned equipment. If the Division fails to issue disposition instructions within the 120 calendar day period, the Recipient shall apply the standards of this section, as appropriate.

(iii) When the Division exercises its right to take title, the equipment shall be subject to the provisions for State-owned equipment.

(24) LEGAL AUTHORIZATION.

The Recipient certifies with respect to this Agreement that it possesses the legal authority to receive the funds to be provided under this Agreement and that, if applicable, its governing body has authorized, by resolution or

otherwise, the execution and acceptance of this Agreement with all covenants and assurances contained herein. The Recipient also certifies that the undersigned possesses the authority to legally execute and bind Recipient to the terms of this Agreement.

(25) ASSURANCES.

The Recipient shall comply with any Statement of Assurances. IN WITNESS WHEREOF, the parties hereto have caused this contract to be executed by their undersigned officials as duly authorized.

## Attachment A

### Budget and Scope of Work

#### I. SCOPE OF WORK

A. The Recipient shall construct a County Emergency Operations Center (EOC). Use of grant funds shall be consistent with Section 1(1), Ch. 2006-71, Laws of Florida. Grant funds shall not be used for land acquisition; purchase of equipment, furnishings, communications, or operational systems; or recurring expenditures.

Eligible reimbursement costs include: Architectural and Engineering services and fees; site survey and soil testing; necessary permits and fees; civil and service utilities site work; construction of the building's substructure, superstructure, shell (exterior enclosure) and interior construction; special inspections; mechanical, plumbing, electrical, conveying and security systems; lightning protection; and redundant infrastructure systems (e.g., electric generator, uninterruptible power supply, potable water and wastewater systems, etc.).

B. The Recipient shall in a timely manner prepare and submit a complete Hazard Mitigation Grant Program (HMGP) application, benefit-cost analysis, environmental review and such other documentation as necessary to determine eligibility and allowable costs under said grant program.

C. The Recipient shall state in writing that for a period of not less than 15 years from the date of receipt of Certificate of Occupancy the EOC will be dedicated for emergency management purposes. The EOC shall remain demonstrably capable of being fully activated within one (1) hour of detection of an emergency; reference Rule Chapter 9G-6, Florida Administrative Code, "Emergency Management Capabilities Assessment Checklist."

D. The EOC shall be constructed with sufficient space to house people and equipment for day-to-day and sustained continuous emergency operations, and capable of full staffing for the most extensive emergency anticipated. At a minimum, the designated EOC functional area(s), and essential shared-use area(s) if applicable, shall be designed for an emergency operations staff size of 59 persons per shift and a workspace floor area of 5,015 gross square feet.

E. At a minimum, the EOC shall meet the hurricane hazard safety criteria established in *Standards for Hurricane Evacuation Shelter Selection* (ARC 4496).

F. The EOC and essential ancillary structures and service equipment shall be designed to resist the effects of a major hurricane. The wind load design requirements shall be in accordance with the American Society of Civil Engineers (ASCE) Standard 7, *Minimum Design Loads for Buildings and Other Structures*. The minimum wind design criteria shall include:

Design Wind Speed = 165 miles per hour (3 second gust)

Wind Importance Factor,  $I = 1.00$

Exposure Category = C

Directionality Factor,  $K_d = 1.00$

Internal Pressure Coefficient,  $GC_{pi} = +/- 0.18$

All components and cladding assemblies necessary to maintain a structurally enclosed condition and prevent rainwater intrusion shall be designed to meet the wind design criteria. Structural metal decking and cladding materials shall be 22 gauge or thicker. Roof cover waterproofing barriers shall meet the wind design criteria. Loose roof ballast shall not be used on the roof cover. Rooftop equipment shall be designed and installed to meet the wind design criteria.

G. The EOC and essential ancillary structures and service equipment shall resist penetration by windborne debris impact. At a minimum, all exterior enclosure components, claddings and assemblies (i.e., walls, roofs, louvers, windows, doors, etc.) located within 60 feet in height above finish grade shall meet the hurricane windborne debris impact criteria

specified in the Department of Energy's (DOE) Standard, *Natural Phenomena Hazards Design and Evaluation Criteria*, DOE-STD-1020-2002. That is, the building enclosure must resist penetration by a nominal 2"x4" lumber plank weighing 15 pounds propelled at 50 miles per hour (74 feet per second) striking end-on and normal to the assembly surface, or equivalent performance as approved by the Division. As applicable, impact test procedures shall be consistent with recognized state and national standards; such as, *Test Standard for Determining Impact Resistance from Windborne Debris* SSTD 12, American Society of Testing and Materials (ASTM) Standards ASTM E 1886 and ASTM E 1996, and Florida Building Code Testing Protocols TAS 201, TAS 202 and TAS 203. The impact test procedures may be modified as necessary to accommodate the required missile weight and velocity.

H. The following information related to wind loads and flooding shall be shown on the construction drawings: 1. wind design per ASCE 7 with applicable year of revision; 2. design wind speed; 3. wind importance factor,  $I$ ; 4. design wind exposure category; 5. wind directionality factor,  $K_d$ ; 6. design internal pressure coefficient,  $GC_{pi}$ ; 7. design wind pressures in terms of pounds per square foot (psf) to be used for the design of exterior component and cladding materials not specifically designed by the principal licensed design professional; 8. windborne debris impact performance criteria; 9. finish floor elevation measured relative to the National Geodetic Vertical Datum (NGVD); and comparison reference of the finished floor elevation to the base flood elevation, or historical flood elevation if base flood elevation is not determined.

I. The lowest floor for the EOC and essential ancillary structures and service equipment shall at a minimum be elevated above: Category 5 hurricane storm surge elevation plus 15 percent; the base flood elevation plus three (3) feet; the 500-year (0.2 percent annual chance) flood elevation (if determined) plus two (2) feet; the highest recorded flood elevation plus three (3) feet if the area is not in a mapped special flood hazard area; whichever is greater. The site (point maximum, one square mile) hydrologic design shall ensure that the EOC and essential ancillary structures and service equipment are not flooded due to a 24 hour, 37.0 inch rainfall event applied over a precedent 24 hour, 100-year rainfall event.

J. Where secondary (emergency) roof drains or scuppers are required by the Florida Building Code—Plumbing, the secondary system shall be sized for a rainfall rate of eleven (11.0) inches per hour.

K. The EOC shall be designated as a threshold building, and special structural inspections required. Special inspections shall be conducted in compliance with section 553.79, Florida Statutes and other applicable statutes, laws and rules.

L. The EOC shall at a minimum be designed for 72 hours of self-contained continuous operation and shall **not** be solely reliant upon off-site services and utilities (e.g., water, natural gas fuel, electricity, etc.)

M. Force protection and security measures shall be consistent with the guidance published in Florida's *Homeland Security Comprehensive Assessment Model (HLSCAM)*, United States Air Force *Installation Force Protection Guide*, or other federal or state recognized best-practices guide(s) as approved by the Division.

N. The Recipient shall provide an initial timeline and estimated reimbursement allocation schedule. Table SW-1, "Initial Timeline and Estimated Reimbursement Allocation Schedule" or other similar instrument as approved by the Division may be used.

O. During design and construction phases of the EOC project, the Recipient shall track and provide construction cost data for the designated EOC area as detailed in Table SW-2, "Cost Data for County Emergency Operations Center."

## **II. PRODUCT ITEMS**

- A. Per item I.N, Recipient shall prepare an initial timeline with key milestone activities/tasks schedule, including estimated start and end dates for each activity, and an estimate of state reimbursement request for each activity. Table SW-1 may be used to meet this product item.

## Revised Attachment A State

### Budget and Scope of Work

#### I. SCOPE OF WORK

A. The Recipient shall construct a County Emergency Operations Center (EOC). Use of grant funds shall be consistent with Section 1(1), Ch. 2006-71, Laws of Florida. Grant funds shall not be used for land acquisition; purchase of equipment, furnishings, communications, or operational systems; or recurring expenditures.

Eligible reimbursement costs include: Architectural and Engineering services and fees; site survey and soil testing; necessary permits and fees; civil and service utilities site work; construction of the building's substructure, superstructure, shell (exterior enclosure) and interior construction; special inspections; mechanical, plumbing, electrical, conveying and security systems; lightning protection; and redundant infrastructure systems (e.g., electric generator, uninterruptible power supply, potable water and wastewater systems, etc.).

B. The Recipient shall in a timely manner prepare and submit a complete Hazard Mitigation Grant Program (HMGP) application, benefit-cost analysis, environmental review and such other documentation as necessary to determine eligibility and allowable costs under said grant program.

C. The Recipient shall state in writing that for a period of not less than 15 years from the date of receipt of Certificate of Occupancy the EOC will be dedicated for emergency management purposes. The EOC shall remain demonstrably capable of being fully activated within one (1) hour of detection of an emergency; reference Rule Chapter 9G-6, Florida Administrative Code, "Emergency Management Capabilities Assessment Checklist."

D. The EOC shall be constructed with sufficient space to house people and equipment for day-to-day and sustained continuous emergency operations, and capable of full staffing for the most extensive emergency anticipated. At a minimum, the designated EOC functional area(s), and essential shared-use area(s) if applicable, shall be designed for an emergency operations staff size of 59 persons per shift and a workspace floor area of 5,015 gross square feet.

E. At a minimum, the EOC shall meet the hurricane hazard safety criteria established in *Standards for Hurricane Evacuation Shelter Selection* (ARC 4496).

F. The EOC and essential ancillary structures and service equipment shall be designed to resist the effects of a major hurricane. The wind load design requirements shall be in accordance with the American Society of Civil Engineers (ASCE) Standard 7, *Minimum Design Loads for Buildings and Other Structures*. The minimum wind design criteria shall include:

Design Wind Speed = 165 miles per hour (3 second gust)

Wind Importance Factor,  $I = 1.00$

Exposure Category = C

Directionality Factor,  $K_d = 1.00$

Internal Pressure Coefficient,  $GC_{pi} = +/- 0.18$

All components and cladding assemblies necessary to maintain a structurally enclosed condition and prevent rainwater intrusion shall be designed to meet the wind design criteria. Structural metal decking and cladding materials shall be 22 gauge or thicker. Roof cover waterproofing barriers shall meet the wind design criteria. Loose roof ballast shall not be used on the roof cover. Rooftop equipment shall be designed and installed to meet the wind design criteria.

G. The EOC and essential ancillary structures and service equipment shall resist penetration by windborne debris impact. At a minimum, all exterior enclosure components, claddings and assemblies (i.e., walls, roofs, louvers, windows, doors, etc.) located within 60 feet in height above finish grade shall meet the hurricane windborne debris impact criteria specified in the Department of Energy's (DOE) Standard, *Natural Phenomena Hazards Design and Evaluation Criteria*, DOE-STD-1020-2002. That is, the building enclosure must resist penetration by a nominal 2"x4" lumber plank weighing 15 pounds propelled at 50 miles per hour (74 feet per second) striking end-on and normal to the assembly surface, or equivalent performance as approved by the Division. As applicable, impact test procedures shall be consistent with recognized state and national standards; such as, *Test Standard for Determining Impact Resistance from Windborne Debris* SSTD 12, American Society of Testing and Materials (ASTM) Standards ASTM E 1886 and ASTM E 1996, and Florida Building Code Testing Protocols TAS 201, TAS 202 and TAS 203. The impact test procedures may be modified as necessary to accommodate the required missile weight and velocity.

H. The following information related to wind loads and flooding shall be shown on the construction drawings: 1. wind design per ASCE 7 with applicable year of revision; 2. design wind speed; 3. wind importance factor,  $I$ ; 4. design wind exposure category; 5. wind directionality factor,  $K_d$ ; 6. design internal pressure coefficient,  $GC_{pi}$ ; 7. design wind pressures in terms of pounds per square foot (psf) to be used for the design of exterior component and cladding materials not specifically designed by the principal licensed design professional; 8. windborne debris impact performance criteria; 9. finish floor elevation measured relative to the National Geodetic Vertical Datum (NGVD); and comparison reference of the finished floor elevation to the base flood elevation, or historical flood elevation if base flood elevation is not determined.

I. The lowest floor for the EOC and essential ancillary structures and service equipment shall at a minimum be elevated above: Category 5 hurricane storm surge elevation plus 15 percent; the base flood elevation plus three (3) feet; the 500-year (0.2 percent annual chance) flood elevation (if determined) plus two (2) feet; the highest recorded flood elevation plus three (3) feet if the area is not in a mapped special flood hazard area; whichever is greater. The site (point maximum, one square mile) hydrologic design shall ensure that the EOC and essential ancillary structures and service equipment are not flooded due to a 24 hour, 37.0 inch rainfall event applied over a precedent 24 hour, 100-year rainfall event.

J. Where secondary (emergency) roof drains or scuppers are required by the Florida Building Code—Plumbing, the secondary system shall be sized for a rainfall rate of eleven (11.0) inches per hour.

K. The EOC shall be designated as a threshold building, and special structural inspections required. Special inspections shall be conducted in compliance with section 553.79, Florida Statutes and other applicable statutes, laws and rules.

L. The EOC shall at a minimum be designed for 72 hours of self-contained continuous operation and shall **not** be solely reliant upon off-site services and utilities (e.g., water, natural gas fuel, electricity, etc.)

M. Force protection and security measures shall be consistent with the guidance published in Florida's *Homeland Security Comprehensive Assessment Model* (HLSCAM), United States Air Force *Installation Force Protection Guide*, or other federal or state recognized best-practices guide(s) as approved by the Division.

N. The Recipient shall provide an initial timeline and estimated reimbursement allocation schedule. Table SW-1, "Initial Timeline and Estimated Reimbursement Allocation Schedule" or other similar instrument as approved by the Division may be used.

O. During design and construction phases of the EOC project, the Recipient shall track and provide construction cost data for the designated EOC area as detailed in Table SW-2, "Cost Data for County Emergency Operations Center."

## **II. PRODUCT ITEMS**

A. Per item I.N, Recipient shall prepare an initial timeline with key milestone activities/tasks schedule, including estimated start and end dates for each activity, and an estimate of state reimbursement request for each activity. Table SW-1 may be used to meet this product item.

B. Per item I.C, Recipient shall submit a binding written statement that the EOC will be dedicated for a period of not less than 15 years for emergency management purposes, and demonstrably capable of being fully activated within one (1) hour of detection of an emergency.

C. The Recipient shall provide one (1) copy each of site survey, site master plan, spatial needs assessment, and schematic design plan or preliminary design drawings for review and comment by the Division. The spatial needs assessment and schematic design plan/preliminary design may be consolidated into one document.

D. The Recipient shall provide one (1) set of substantially complete (approximately 70 percent) preliminary design construction drawings and specifications for the EOC and essential ancillary structures for review and comment by the Division. The construction drawings shall include site survey information, landscaping, civil, architectural, structural, mechanical, plumbing, and electrical drawings.

E. The Recipient shall provide one (1) set of bid-ready construction drawings and specifications for the EOC and essential ancillary structures for review by the Division. The construction drawings shall include site survey information, landscaping, civil, architectural, structural, mechanical, plumbing, and electrical drawings and shall be certified by the applicable registered or licensed design professional(s) of record.

F. The construction drawings shall demonstrate that the EOC will meet the hurricane hazard safety criteria of ARC 4496, and the wind load, windborne debris impact, flood and security design requirements set forth in items I.E through I.M. Failure to supply the required documentation, or disapproval of this documentation by the Division, shall result in denial of funds.

G. Per item I.B, Recipient shall submit a complete HMGP application, benefit-cost analysis, environmental review and such other documentation as necessary to determine eligibility and cost allowances under said grant program. The Recipient shall also provide two cost estimates prepared by one or more certified construction contractors that document the cost of constructing the facility to meet current building code wind and flood design requirements, and the cost premium of constructing the facility to the above-code wind and flood requirements set forth in items I.E through I.J.

H. Per item I.O, the Recipient shall provide final project cost data. Table SW-2 shall be used to meet this product item.

No construction work may begin until Phase II deliverables are reviewed and approved by FEMA. Failure to comply with this condition can result in the loss of all funding for this project.

*The materials and work funded pursuant to this Subgrant Agreement are intended to decrease the vulnerability of the building to property losses and are specifically not intended to provide for the safety of inhabitants before, during or after a natural man made disaster.*

*The funding provided by the Division of Emergency Management under this subgrant shall compensate for the materials and labor for the installation of storm shutters and/or other hardening activities as a retrofit measure for the Recipient's building to reduce and/or mitigate the damage that might otherwise occur from severe weather or other hazards. The funding of this*

It is further understood and agreed by the Department and the Recipient that the level of wind protection provided by the mitigation action, although meeting State standards and codes and enhancing the structural integrity of the building, does not ensure the safety of survival of building occupants.*
