Resubmit a revised contract approval form

Subject: Copyfax

Dawn,

I have made an error in the time frame that we will be getting the New Copier, after speaking with Richard Durant with Ricoh/Copyfax he indicates that our agreement will not start till June 2012 on the new unit and end May 2017.

Is this something we can just strike through and change on the attached agreement or do we need to resubmit a new approval form.

Thanks

Suzie

Full-featured, performance enhancing

Produce high-quality documents — fast

The Ricoh Aficio MP C4502/MP C5502 Series offers a powerful integration of speed and reliability that improves both personal and workgroup productivity. This system prints or copies up to 55 pages-per-minute. An impressive warm-up time of less than 21 seconds means faster output and less waiting. Individual prints or copies take less than six seconds. A choice of three finishing options — including a 2,000-Sheet Booklet Finisher — adds a professional touch to any document.

Take advantage of powerful connections

Enjoy full compatibility throughout the office with a host of network capabilities engineered specifically to enhance efficiency. Print from most manufacturers' mobile devices by downloading their application for convenient output when and where it is needed most. Generate output at the device using a USB memory or SD card for convenience and flexibility.

Share documents with greater speed and confidence

This new series lets you scan, share and store documents quickly and easily. You can scan full-color or monochrome originals and share them instantly with Scan-to-Email/Folder/HDD. Preview full-color thumbnails of scanned pages to ensure quality and accuracy before distributing them. Access LDAP-registered directories and information, including Home Directory, for fast, convenient scanning and easier, cost-effective administration. This system also offers PDF/A support and High Compression PDF features, which allow you to compress file sizes for faster, more reliable distribution.

Manage your fleet with efficiency and precision

Simplify administrative tasks and system upgrades

A number of easy-to-use tools allow you to simplify virtually every type of job. You can dramatically reduce costs associated with wasted output by establishing print and copy quotas for as many as 1,000 users. Ricoh's Web Image Monitor lets you configure system settings, manage address books and monitor device status. Remote firmware upgrades make it easy to capitalize on the latest technology and optimize system performance.

Take control with user-friendly tools

Ensure your networked devices operate at peak efficiency via intuitive system management, device monitoring, troubleshooting and other administrative tools. Configure, organize and diagnose network devices remotely by accessing Web SmartDeviceMonitor from any standard web browser. Automate service calls and the collection of critical device data with @Remote™ software. You can even request e-mail alerts, so you'll know the moment supplies are low or an error is detected.

Minimize environmental impact, maximize savings

Ricoh's commitment to environmental responsibility is reflected in the design of this innovative system. You can measurably reduce your paper consumption by encouraging users to take advantage of the high-performance automatic duplexing — for both copying and printing. A built-in Eco-Friendly Indicator tells users how much they or their workgroups have saved by using two-sided printing capabilities. To minimize energy use and wait time, the Ricoh Aficio MP C4502/MP C5502 Series consumes only 1 watt while in Sleep Mode and recovers in less than 18 seconds.

RE: ITN07DD-162YC - Multifunctional & Specialty Application Copiers

Dear Jay:

The University of Florida desires to exercise the optional renewal clause and renew your contract, under the same terms and conditions, from November 1, 2011, through October 31, 2012, or until a new contract is awarded, whichever comes first.

All General and Special Conditions, including any special provisions which may have been mutually accepted during the term of the agreement, will remain in effect during the renewal period.

If this renewal meets with your approval, please indicate your acceptance, with an authorized signature and return as soon as possible.

Please contact me if you have any questions concerning this renewal option.

Sincerely,

Karen Olitsky
