RE: WEST NASSAU LANDFILL CLOSURE I - Allowance Request #17 – North Slope Toe Drain

The work associated with this item includes supplying and installing an additional toe drain system at the North slope bottom tie-in and discharging down the Western and Eastern sides of the landfill. In addition to supplying and installing the new material, the existing capped landfill will need to be excavated (approx. 2' wide) to liner grade for the discharge pipes on the West side and then backfilled and re-sodded over. Also, where the long run of new perforated pipe is being installed along the North tie-in, protective cover and topsoil are already in place and will need to be excavated (approx. 2' wide) as well. This excavation will not require going to liner grade, but will result in a larger "burrito wrap" due to the minimum excavator standard bucket size.

To install this drainage system it will take an estimated 65 crew hours and require the following:

MATERIAL: 4" ADS pipe, 4" SCH 80 PVC pipe, 2"-4" rip-rap, 10oz NW geotextile, (see attached quotes);
EQUIPMENT: one 225 Excavator, one 644 Loader, one CD-60 Crawler Carrier, one 250 Haul Truck;
LABOR: three operators, four laborers.

The total costs are as follows: MATERIAL - \$8,800.64, EQUIPMENT - \$10,954.22 and LABOR - \$8,255.36 for a total cost of **\$28,010.22**.

Special conditions:

- Delivery & Price Escalation:** Unless otherwise noted above, prices are firm for 30 days from date of quotation. A Purchase Order from the Customer must be received by GSE within the 30 day period and customer must agree to take delivery of products within 30 days of issuance of a GSE Order Acknowledgement, or GSE reserves the right to escalate the prices for those products or cancel the order. The freight cost listed above is an estimate. Freight will be charged based on actual cost at time of shipment.
- Material Quote:** PRICES QUOTED ARE FOB FACTORY WITH FREIGHT ALLOWED
- Material Warranty:** Unless otherwise noted above, GSE manufactured products are sold with GSE's Standard Limited Material Warranty. GSE will pass through the original manufacturer's warranty for all products not manufactured by GSE.
- Shipping:** Unless noted otherwise, all geonets, geocomposites and geotextiles are shipped in enclosed vans and stacked horizontally.
- Quantities:** Any change in products, specifications or quantities by Customer will require a revised quotation and Order Acknowledgement. If Customer elects to purchase only a portion of the products, GSE shall have the right to adjust its pricing to reflect the impact of such election.
- Roll Sizes:** All roll sizes are approximate. Invoicing will be based on actual roll length shipped. On occasion, GSE reserves the right to ship no more than one (1) short roll per truckload, with a minimum allowance of (1) short roll per order for inventory control purposes. The definition of a short roll is one in which the length is equal to or is greater than 50% of the standard length for a particular product.
- Terms and Conditions:** GSE General Terms and Conditions of Sale shall apply to all transactions.
- Material Specifications:** Unless otherwise agreed in writing by a GSE authorized representative, GSE's standard property values, quality control testing procedures, and documentation apply to the products quoted.
