Environmental responsibility is important to us and our customers. We value your business and are committed to providing high quality service. We strive to contain costs but are unable to unilaterally control environmental and compliance expenses.

We continually evaluate the Environmental Recovery Fee to determine whether we are appropriately recovering the costs our companies incur nationwide to operate and maintain their facilities in an environmentally responsible manner, and achieving an acceptable operating margin. We determined that the ERF needed to be adjusted to yield a more appropriate level of cost recovery.

The Environmental Recovery Fee is a Republic Services' charge to recover environmental expenses associated with operating Republic Services' and its affiliates' landfill, transfer station, material recovery and landfill gas-to-energy facilities nationwide, and is designed to achieve an acceptable operating margin.

Effective January 1, 2020, the Environmental Recovery Fee will increase to \$16.25 per load. If you have any questions or concerns, please feel free to contact our Recycling Center at (904) 999-3044.

We look forward to your continued patronage. You can be confident that we will continue to professionally manage your waste stream in accordance with federal, state and local laws and regulations.

Sincerely,

Jason Graves

Dear Customer,

With the rising popularity of recycling and sustainability initiatives, contamination levels are also rising. Our Recycling Centers process tons of material each month and unfortunately, a significant portion of that material is non-recyclable. As you know the non-recyclable material must be pulled out and transported to a disposal facility, therefore significantly increasing the cost of processing material.

Republic Services is also navigating a new resale market which has significantly decreased the percentage of allowable contamination in commodities sold. Unfortunately, Republic Services can no longer continue to absorb the impacts related to the current economic conditions. We will continue to provide the excellent service you expect and deserve from us; however it is necessary to implement the following rate change effective **January 1, 2020**.

*** Processing Fee* - \$103.95 per ton**

Republic Services will continue to professionally manage your waste stream safely and in accordance with federal, state and local laws and regulations. If you have any questions, please feel free to contact our Recycling Center at 904-999-3044.

Sincerely,

Jason Graves
