# Attachment "A" Proposal

June 11, 2021

Mr. Taco Pope County Manager Nassau County 96135 Nassau Place, Suite 1 Yulee, FL 32097

Subject: Proposal to Provide Utility Consulting Services - Interlocal Agreement Review Services

Dear Mr. Pope:

Raftelis Financial Consultants, Inc. ("Raftelis") is pleased to submit this proposal to provide consulting services to provide utility rate and financial consulting services (the "Proposal") to the Nassau County (the "County") with respect to addressing certain issues regarding the Nassau County / JEA Water and Wastewater Interlocal Agreement dated December 17, 2001 between the County and JEA (the "Interlocal Agreement"). Based on our discussions, the services to be provided will consist of i) preparing a compliance review of the information and analyses provided annually by JEA pursuant to Section 5 of the Interlocal Agreement; ii) providing analytical support services in the review of the franchise fee payments pursuant to Section 9 of the Interlocal Agreement and iii) assisting the County with its annual review / determination of the potential acquisition price for the water and wastewater utility system owned by JEA in Nassau County that is subject to the terms of the Interlocal Agreement (the "System") (collectively, the "Project"). Based on our discussions and our understanding of the Project, Raftelis proposes the following:

### PROJECT TEAM AND BILLING RATES

With respect to the performance of this engagement, Mr. Robert Ori would be the project director and the primary contact with the County. Other financial analysts and administrative personnel with the firm may be utilized during the engagement as needed. Please see Attachment A for a summary of the personnel by title and billing rates for Raftelis staff that may be utilized during this engagement which is made part of this Proposal.

### SCOPE OF SERVICES

The scope of services to be performed by Raftelis is included in Attachment B, which is made a part of this Proposal.

### COMPENSATION AND BILLING

Based on the scope of services as summarized in Attachment B and the direct labor billing rates as identified herein, we propose to establish a maximum not-to-exceed contract to perform the Project on behalf of the County by Raftelis in the amount not-to-exceed \$25,400. This cost estimate does not include any costs for the Project that may be attributable to the services to be provided by any consulting engineers for the County, outside legal counsel, or any other County consultants. A cost estimate delineated by task that

Mr. Taco Pope Nassau County June 11, 2021 Page 2

comprises the scope of services is shown in Attachment C, which is made a part of this Proposal. Although delineated task, the amount represents the total cost for the Project and the actual amounts billed by Raftelis for each task and by project team member as identified in the cost estimate may vary from what is estimated and shown on Attachment C so long as the total amount billed does not exceed the maximum not-to-exceed contract price for the Project.

This contract budget amount includes the direct cost of personnel anticipated to be assigned to conduct the various tasks of the Project by Raftelis as well as an allowance for other direct costs such as travel, telephone, delivery charges and subconsulting expenses, if any. The costs incurred by Raftelis for such other direct costs, if any, would be billed to the County based on the standard rate for the recovery of such costs as identified in Attachment A. It is proposed that Raftelis would bill monthly for services relative to this engagement based on the sum of: i) the hourly amount of time spent by the Project team members; ii) the other direct costs incurred to provide the financial consulting services; and iii) the subconsulting expenses incurred by Raftelis required to assist in Project completion, as adjusted for administrative costs per Attachment A. This Agreement does not contemplate the use of any other subconsultants to assist Raftelis in the completion of the Project.

The proposed contract budget will be billed on an hourly basis predicated on the actual work effort (i.e., a time and materials basis) performed by Raftelis and not on a lump-sum basis. To the extent that the Project was completed at a cost less than the contract budget, Raftelis would not invoice the County for any amounts remaining (unbilled) on such contract except for the provision of any additional services which the County may request from that would require our services, as mutually agreed between the parties.

### PROJECT SCHEDULE

Upon notification to proceed as provided by the County and upon the receipt of the information from JEA, including any additional information received from interrogatories sent to JEA by the County associated with the Project, Raftelis plans to perform the services within sixty (60) days after information is received. The completion of the analysis would be subject to the availability of information provided to Raftelis from the JEA in a usable format that would be necessary to conduct the service area asset analysis and the calculation of the franchise.

### DISCLOSURE

As a registered Municipal Advisor under the Dodd-Frank Act, Raftelis is required to inform our clients of any existing or potential conflicts of interest that may be relevant to any proposed scope of services that may include providing "advice" as that term is defined in the Dodd-Frank Act. As of the date of this engagement letter, no conflicts of interest are known to exist.

Under the Dodd-Frank Act the definition of "advice" includes providing any opinion, information or assumptions related to the size, timing and terms of possible future debt issues or borrowing. This type of information may be integrated into the capital and financial planning components of a rate model update. This definition is applicable regardless of whether this information is developed and used solely for

Mr. Taco Pope Nassau County June 11, 2021 Page 3

planning and decision-making purposes. For the services addressed in the scope of work identified for this engagement, no information to be developed by Raftelis will fall under this definition of municipal advice.

By accepting this Proposal and in consideration of an Agreement between the County and Raftelis, the County is also explicitly acknowledging that Raftelis has provided the necessary disclosures addressing any conflicts of interest and any limitations on the scope of Municipal Advisory services to be provided by Raftelis as part of this engagement.

The following is a summary of the scope of services and corresponding tasks to be performed by Raftelis Financial Consultants, Inc. ("Raftelis") by specific task:

This scope recognizes that Raftelis will assist the County in the preparation of a formal request to JEA to begin the data compilation activities and to develop a data process. The data needs will include, but not be limited to, detailed fixed asset records and descriptions for utility plant additions and deletions in the water and wastewater utility system owned by JEA in Nassau County that is subject to the terms of the Interlocal Agreement (the "System"); ii) basis for acquisition; iii) customer information and sales (potable and reclaimed water use and billed wastewater flows) statistics; iv) impact fees received by JEA from development within the System; v) permits for water and wastewater treatment plants located in the System; vi) grant funds received by JEA that were applied to plant construction in the System; vii) revenues earned by JEA by utility and customer type; and viii) other related information.

This task also recognizes the attendance of an on-site meeting with JEA to review the Interlocal Agreement and to develop the process for the compilation and transfer of information to the County, to "crosswalk" the information needs to the Interlocal Agreement, and to discuss any other issues related to the data transfer process.

<u>Task 2 - Review of JEA Provided Documents</u>: Raftelis will assist the County in the review of the documents and information required to be submitted by JEA in accordance with the Interlocal Agreement for completeness and consistency to the meet the needs of Section 5 of the Interlocal Agreement. Based on the data review, Raftelis will prepare a list of "document deficiencies", if any, and interrogatories for

document clarification or additional data for the County based on the information as provided by JEA. Raftelis will attend one on-site meeting with the County and JEA to review the current period data submittal.

Task 3 – Develop/Review Utility Net Investment Update per Section 5 of Interlocal Agreement: Based on data received per the Task 2 activities and based on the overall data availability, Raftelis will update the County's Utility Asset Analysis workpaper initially prepared in 2020 to i) identify and track the utility plant assets placed into service or retired from service to identify the gross net plant in service; ii) identify the change in accumulated depreciation on the reported gross plant in service to estimate net plant in service; iii) based on asset descriptions and cost, identify the estimated property-related contributions-in-aid-of-construction; iv) based on new development and customer information, estimated the cash-related contributions-in-aid-of construction; and v) identify other contributed capital and possible adjustments in the determination of Net Investment.

Task 4 - Develop/Review of Projected Franchise Fee Payments per Section 9 of Interlocal Agreement: Raftelis will review the financial and statistical information provided by JEA and perform analytical procedures to assist the County with its review or the calculated franchise fee payments provided by JEA.

<u>Task 5 – County Presentation of Results and Findings</u>: Raftelis will attend one meeting with the County to present the results and findings associated with the review of the JEA documents, the development of the end of year Net Investment and franchise fee estimates / true-up, and any issues or information deficiencies identified during our document review and analytical evaluations.

<u>Task 6 - Technical Memorandum/Report</u>: Raftelis will prepare a technical memorandum or report documenting the procedures used in our evaluations, the data received from JEA, and our analytical support services and any issues or information deficiencies relative to compliance with the Interlocal Agreement for the County's consideration.

Meetings: Meetings will also be held throughout the course of the Project to review the information checklist and provided information from JEA, the results of the financial evaluation, and discuss other observations and issues with the County. The total number of meetings assumed under this portion of the scope of services and cost estimate includes two (2) on-site meetings and two (2) off-site (virtual) meetings; attendance of any additional on-site or off-site meetings will be considered as an additional service to this scope of services. It was assumed that the on-site meetings, including preparation and travel allowances, would have a duration of eight (8) hours and the virtual meetings would have a duration of two (2) hours per meeting.

### List of Deliverables

The deliverables to be provided with respect to the preparation of the design of the recommended rates and rate structure component of the Project shall include the following items:

- Data Checklist and Data Request
- Net Investment Evaluation (Update)
