## Pruning shade trees in the landscape

# Pruning palms

Edward F. Gilman<sup>1</sup> and Nathan J. Eisner<sup>2</sup>

**Introduction:** Palms and cycads are often thought of as low maintenance plants; however, most palms require regular pruning to keep them attractive and safe. Many palms maintain a set number of live fronds. A regular turnover of foliage occurs as dying lower fronds are replaced by new ones at the apex. These dead fronds are not detrimental to the health of the tree. If there is an excessive number of older yellow fronds determine the cause before pruning. There could be a severe nutrient problem, caused by a potassium or magnesium deficiency, that could worsen if the palm is pruned or fertilized with high nitrogen or the wrong type of fertilizer.

There are several reasons for pruning palms **1)** Removing dead and dying lower fronds improves the appearance of a palm. **2)** Dead and dying fronds and loose petioles are weakly attached to some palms and can place people and property at risk should they fall from tall palms. People have been severely injured by falling fronds. Dead and dying palm fronds should be removed regularly to reduce this risk. **3)** Pruning can remove fruit clusters, especially in public landscapes where falling fruit and flower debris can be messy as well as hazardous. Some palms generate copious amounts of seedlings near the plant. Removing flowers or fruit reduces the number of potential seedlings. **4)** Remove sprouts from the base of the trunk.

**Objectives:** **1)** Remove dead and dying fronds and developing flowers and fruits to reduce risk and enhance aesthetics; **2)** remove sprouts or stems to maintain one trunk.

before pruning	after pruning	over-pruning
		
<p>Consider removing lower fronds that are chlorotic or dead. There is no biological reason to remove live green fronds on palms. There is no research supporting the notion that removing live green fronds reduces future pruning requirements.</p>	<p>Remove lower fronds that are dead or more than about half chlorotic. Do not remove green fronds or the palm could become stressed. (If you decide to remove green fronds, do not remove those growing horizontally or pointed upward.)</p>	<p>Over-pruned palms look terrible and could attract pests. In the detail above you can see that many upright fronds were removed. Why remove green fronds when the palm was planted for its tropical look. That tropical look results from live green fronds.</p>

---

**Execution:** It is preferable not to remove live, healthy fronds. If they must be removed, however, avoid removing fronds that are growing horizontally or those growing upward. Fronds removed should be severed close to the petiole base without damaging living trunk tissue. There is little reason to shave or sand the trunk smooth. The pineapple shape crafted at the base of date palms is not necessary for good health of the palm.

SUBJECT: Addendum No. 3  
Request for Proposals Number NC24-019  
County-Wide Mowing Services for Right-of-Ways

DATE: July 2, 2024

---

This addendum is hereby incorporated into the solicitation documents of the project referenced above. The following items are clarifications, corrections, additions, deletions and/or revisions to, and shall take precedence over, the original documents.

Questions and Answers:

1. For Zones that don't say high pedestrian traffic, how are they classified? Urban, rural or suburban?

Answer: Refer to the attached Mowing Zone Services List

2. Are we keeping the same frequencies that are listed in the original RFP

Answer: See attached Mowing Zone Services List

3. Is vendor expected to handle Nassau Station parks located on some of the roads in the RFP?

Answer: The scope of this solicitation only covers the Roadway Right-of-Ways and the Trails per the scope of work.

4. Is vendor responsible for the new tree ring beds on William Burgess?

Answer: Not at this time for this proposal.

5. Some rural area roads do not have much easement area to cut. Based on RFP side lengths, this goes into homeowner yards. Should we adjust side lengths accordingly per road?

Answer: The widths were an average for estimate purposes only, field conditions will dictate that the mowing should only extend to fence lines or woodlines. Do not go in

County-Wide Mowing Services for Right-of-Ways

to yards.

6. Is vendor responsible for roundabout on heron isles parkway?

Answer: Yes

7. Is mulch included in scope of service for Heron Isles pkwy?

Answer: No

8. Is there a specific end point to Arrigo Rd? It leads into a neighborhood. Where is HOA vs vendor responsibility?

Answer: Arrigo ends at the cul-de-sac east of Inlet Cove.

9. Is vendor to handle medians with Jasmine/tree beds/mulch? Is there a different scope for these items?

Answer: No, for this proposal, only mowing, edging and weed-eating.

10. Woodsbridge Rd has palm trees and jasmine. Vendor responsibility?

Answer: For this proposal, only mowing, edging and weed-eating.

11. Is vendor responsible for median at College pkwy and Creekvile Dr.?

Answer: Yes

12. is vendor to cut the ditch between diamond and emerald?

Answer: Not for this proposal, only the road right of way.

14. Cut ditch at end of sweetbriar lane?

Answer: No

15. Is vendor responsible for boat ramp areas at Winterberry ave and Gainesville rd?

Answer: No

16. For roads with roundabouts- are the "island medians" included on the sides of the roundabouts?

County-Wide Mowing Services for Right-of-Ways

Answer: Yes

17. There's a cemetery at Alligator Creek Rd- is vendor to cut cemetery grounds?

Answer: No, the cemetery is not included in the scope of services.

18. Are areas marked with blue arrow included with roundabout?

Answer: Yes, those areas are included.

19. Will future trails listed be completed this year?

Answer: There is a possibility of a portion being completed. Some have started and some have not been bid yet. These are informational at this point and not part of the proposal.

20. Typically, regarding State, Government, CDD and other similar bids, a budget is made public. Is that the case here?

Answer: The budget depends on the proposals received.

21. Is there a prior tab sheet available?

Answer: Previous Bid Price Sheets were provided in Addendum 2.

22. Can the county provide what service types you consider each Zone to be?

Answer: Refer to the attached Mowing Zone Services List

23. The deadline and turnaround time for a bid of this size is not really enough time for a landscaping company to visit each site and do a true audit - especially since we don't have service maps as of yet to ensure when we visit each site, we know exactly what to maintain. That being said, can you please extend the deadline, ideally an additional two weeks, or longer?

Answer: The RFP Due date is being extended to July 11, 2024 at 10:00 AM EST..

24. Can you clarify the start date for all of these locations?

Answer: See Scope of Services under service types.

**The solicitation due date and opening has been changed to: July 11, 2024 at 10:00 AM EST**
