Dear Sir:

Section 74000-xxxx, State Road or Street (Harts Rd.),
Nassau County, Parcel 1 (R/W SIG-C)
Crossing No.: 620823-E; RR MP: S-614.10
Seaboard Coast Line Railroad Company

Please be advised, at this time, the referenced crossing is in the Safety Program for railroad signal installation the fiscal year 1981-82. This crossing was selected on a state-wide priority.

The estimated installation cost of Type I, Class I signals at this location is \$37,100. The Federal Highway Administration agrees to pay ninety percent (90%) and the Florida Department of Transportation will be responsible for the remaining ten percent (10%) of the total installation cost. The annual maintenance cost of Type I, Class I signals at this location is \$650. The County of Nassau is responsible for fifty percent (50%) of the annual maintenance cost and the railroad company is responsible for the remaining fifty percent (50%).

A resolution is required by the Department from the County of Nassau before any preliminary engineering can be started by the railroad company.

If the County of Nassau objects to installing railroad signals at this location, the Department will require a letter to this effect.

Your expeditious handling of this matter is appreciated.

Sincerely yours,
