Mr. Richard L. King
Nassau County Engineer
Route 2 Box 176
Fernandina Beach, Florida 32034

Dear Sir:

Subject: Section 74000-6924, State Road or Street Andrew Rd.
Nassau County, Parcel 1 (R/W SIG-C)
Crossing No. 620730-K RR MP: A-610.60
Seaboard System Railroad, Inc.

Please be advised, at this time, the referenced crossing is in the Safety Program for railroad signal installation the fiscal year 1985-86. This crossing was selected on a statewide priority.

The estimated installation cost of Type III, Class III signals at this location is \$55,000.00. The Federal Highway Administration agrees to pay ninety percent (90%) and the Florida Department of Transportation will be responsible for the remaining ten percent (10%) of the total installation cost. The annual maintenance cost of Type III, Class III signals at this location is \$980.00. The County of Nassau is responsible for fifty percent (50%) of the annual maintenance cost and the railroad company is responsible for the remaining fifty percent (50%).

The County of Nassau is responsible for installation of railroad warning signs.

A resolution is required by the Department from the County of Nassau before any preliminary engineering can be started by the railroad company.

If the County of Nassau objects to installation railroad signals at this location, the Department will require a letter to this effect.

Your expeditious handling of this matter is appreciated.

Sincerely yours,

A handwritten signature in cursive script that reads "W. T. Crews".
