Crossing No. 620806-N, RRMP: SMA 40.80

Dear Mr. Branan:

Please be advised that the referenced crossing is in the safety program for railroad signal installation for fiscal year 1993-94. This crossing was selected on a statewide priority.

The estimated cost of Type III Class III Signals at this location is \$88,000.00. The Federal Highway Administration agrees to pay eighty percent (80%) and the Florida Department of Transportation will be responsible for the remaining twenty percent (20%) of the total installation cost. The annual maintenance cost of Type III Class III signals at this location is \$2,117.00. The county is responsible for fifty percent (50%).

A resolution is required by the Department from the County before any preliminary engineering can be started by the railroad company.

Please execute the enclosed resolution or furnish me with a letter stating that Nassau County objects to installing railroad signals at this location.

Your expeditious handling of this matter is appreciated. If I may be of assistance, please call me at 904-381-8751.

Sincerely,

Lillian G. Porter
Asst. District Railroad Coordinator
