ADDENDUM NO. 2

COASTAL ENGINEERING DESIGN SERVICES FOR A BEACH RESTORATION PROJECT, AMELIA ISLAND, NASSAU COUNTY, FLORIDA

This ADDENDUM shall be considered to be a part of an existing Contract previously entered into by The South Amelia Island Shore Stabilization Association, Inc., herein called OWNER, and Olsen Associates, Inc., and their subcontractors, herein called OA.

The purpose of the ADDENDUM is to provide for additional services not within the scope of the original AGREEMENT. Specifically, the ADDENDUM addresses post-construction beach and turtle monitoring activities and additional professional services related to the installation of a terminal structure, or structures, at the southern end of a previously constructed beach restoration project. All work will be performed on a Time and Materials basis at prevailing rates (see Attachment A).

The revised scope-of-work will be expanded to include the following:

TASK A - Post-Construction Performance Monitoring - OA will perform a Physical Monitoring Program as required by DEP Permit No. DBS 9A0328 NA. The scope-of-work and not-to-exceed cost are addressed by Attachment B.

TASK B - Beach Turtle Monitoring - OA will provide professional services required to perform the sea turtle/beach condition monitoring scope-of-work required by the U.S.F. & W.S.. Any non-professional Contractor services shall be bid by the Owner. The scope-of-work and not-to-exceed costs for professional services are addressed by Attachment C.

TASK C - Terminal Structure(s) - OA will provide professional services necessary to plan, permit, design and manage the construction of a terminal structure, or structures at the south end of the beach restoration project constructed in 1994. All work will be performed with phased limits of authorization determined by the OWNER. This Addendum addresses an authorized amount of \$124,000 for purposes of permit fees and professional services required during the initial Permit phase of work. An overall budget

of \$789,000 was authorized by the Nassau County Board of County Commissioners on 22 August, 1994 for purposes of performing this work.

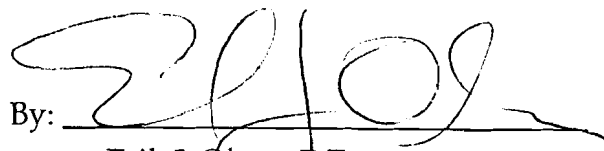

The termination date of the existing Agreement between Owner and OA shall be extended to 31 December, 1997.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals this 1st day of February, 1995, at Amelia Island, Florida.

WITNESS:

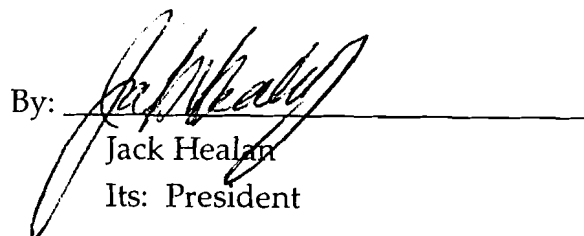

Barbara A. Warner
