## Company Background

(Founded October 1, 1999)

Advanced Disposal Services Jacksonville, LLC (Advanced Disposal) is pleased to submit the enclosed proposal to the Jacksonville Aviation Authority for consideration of its "Waste Collection, Recycling, and Disposal Services" RFP. Advanced Disposal is a wholly owned subsidiary of Advanced Disposal Services, Inc., a Delaware Company, with headquarters in Jacksonville, Florida.

Advanced Disposal is a full service solid waste and recycling Services Company with collection, transfer and disposal operations in Florida, Georgia, and Alabama. The company is founded on the belief that customer service is paramount and that it is every employee's job to ensure that our customers are cared for with unfailing responsiveness and reliability.

Advanced Disposal is dedicated to preserving the environment and ensuring that all our operations are conducted in a manner that follows all local, state and federal laws in regards to environmental protection. Our goal is greater than simply collecting and transporting solid waste from your location to a permitted landfill or recycling facility. Instead, we strive to leave your community and place of business a cleaner, more pleasing place to live and work.

Advanced Disposal has the operational expertise, management strengths, financial capabilities and commitment to quality that few publicly traded or independent companies can rival. Our independent status frees us from the bureaucratic structure of a national company so that decisions that are important to you can be made quickly and implemented effectively. Our management team of waste professionals and access to financial capital places us in a unique position among other independent waste companies that do not have the same level of experience and financial stability.

Advanced Disposal and its subsidiaries have both significant net worth and the financial capacity to insure its ability to provide its customers stable and financially secure collection and disposal operations. Advanced Disposal has never declared bankruptcy nor ever failed to meet any past financial obligation.

The strength behind Advanced Disposal is the individuals who make up the company and abide by a philosophy of quality customer service. Our Chairman of the Board, Felix A. Crawford ("Andy"), built Southland and Seaboard Waste Systems from a one truck operation into a multimillion dollar company prior to selling it to Republic Industries, Inc. in 1995. It took Andy 18 years of hard work and personal sacrifice to achieve the current success that Republic now enjoys. He was instrumental in developing many of the solid waste practices being used in north Florida and South Georgia today and has helped influence the solid waste industry nationwide as a Board Member of the National Solid Waste Management Association based in Washington, D.C.

In addition to Mr. Crawford's experience and leadership, the management team that has been established for Advanced Disposal has many years of experience as well serving both commercial and residential

franchises, all within north Florida and southeast Georgia. While some of the publicly traded solid waste companies have bureaucratic corporate management structures located hundreds of miles away from Duval County and have replaced their general managers within the last year and a half or less, Advanced Disposal's management is here to stay.

Our success can be measured through the strong partnerships that have developed between our employees and the customers we serve and have served in the past. Whether or not our customers are municipalities, industry, commercial businesses, construction & demolition companies, or individual homeowners, we look forward to creating and building our relationships by providing quality service at a fair price. It's a simple philosophy but one that appears to work for our customers and us.

Many of our employees have worked for publicly traded solid waste haulers in the past and joined Advanced Disposal to work in a more customer-oriented atmosphere that focuses its energies on long-term goals and commitments rather than short-term Wall Street quarterly statistics. The Chairman (Andy Crawford), COO (Wally Hall), District Manager (Dave Lavender), Corporate Sales Manager (Tammy Wilson) and additional operational staff have all committed to servicing the Aviation Authority to the very best of our ability realizing that the goal is not simply adding a new customer to our line of business. Instead, the goal is to build and define ourselves as a company in northeast Florida with a true commitment to quality and clean communities.

RESERVATION OF COUNTY POWERS.** No Permittee shall acquire any vested or contractual rights hereunder which would limit in any manner the County's right to amend, modify, or revoke this Ordinance. The issuance of a Permit under the authority of this Ordinance shall not be deemed to limit the County's ability to impose additional fees and charges on any Permittee nor shall the issuance of a Permit pursuant hereto limit

the County's ability power to enact future reasonable regulations applicable to Solid Waste Haulers and Permittees.
