Mr. Richard L. King
Nassau County Engineer
Route 2, Box 176
Fernandina Beach, FL 32034

Dear Sir:

Section 74000-6922, S.R. or Street Prattside Rd.
Nassau County, Parcel 1 (R/W SIG-C)
Crossing No.: 620737-H RR MP: S-616.60
Seaboard System Railroad, Inc.

Please be advised, at this time, the referenced crossing is in the Safety Program for railroad signal installation the fiscal year 1983-84. This crossing was selected on a state-wide priority.

The estimated installation cost of Type III, Class IV, signals at this location is \$60,000. The Federal Highway Administration agrees to pay ninety percent (90%) and the Florida Department of Transportation will be responsible for the remaining ten percent (10%) of the total installation cost. The annual maintenance cost of Type III, Class IV, signals at this location is \$1,230. The County of Nassau is responsible for fifty percent (50%) of the annual maintenance cost and the railroad company is responsible for the remaining fifty percent (50%).

The County is responsible for installation of railroad warning signs and furnishing estimated 30 cu. yds. of fill material.

A resolution is required by the Department from Nassau County before any preliminary engineering can be started by the railroad company.

If Nassau County objects to installing railroad signals at this location, the Department will require a letter to this effect.

Your expeditious handling of this matter is appreciated.

Sincerely yours,

for R.L. Colley
W. T. Crews, District
Railroad Coordinator
